

Fig. 97B is a cross-sectional view taken along line R-R in Fig. 97A;

Fig. 97C is a cross-sectional view taken along line S-S in Fig. 97A;

Fig. 97D is a side view of a shaft member;

Fig. 97E is a cross-sectional view taken along line T-T in Fig. 97A;

Fig. 98 is a cross-sectional view showing another embodiment of a cleaning fabric

take-up shaft applied to the cylinder cleaning device of the present invention;

Fig. 99 is a diagram for explaining take-up of the cleaning fabric; and

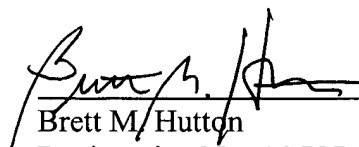

Fig. 100 is a diagram for explaining pulling up a cleaning take-up shaft from a cleaning fabric roll to which the cleaning fabric has been taken up

REMARKS

The Application has been amended to include the Brief Description for the drawings labeled Figure 97-100. In the event that a telephone conference would facilitate examination in anyway, the Examiner is invited to contact the undersigned at the number provided.

Respectfully submitted,

Dated: April 17, 2001
